Modular Workbench

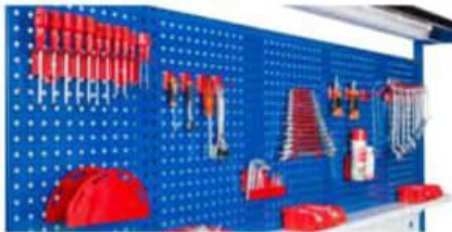

Lighting

Projecting in accordance with the dimensions of the workbench provides a brighter worktop environment with LED luminaires made of chrome sheet metal.

Team Hanging Board

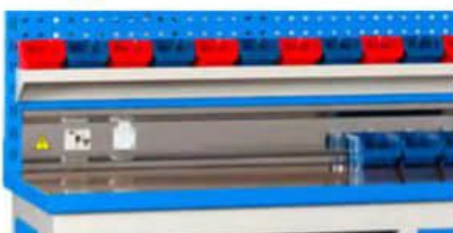

It provides a more efficient working environment by arranging your generally used hand tools on the tool hanging board and prevents time loss.

Tool Rack

It provides ease of use and organization of hardware materials such as tool boxes and spray cans.

socket

220V sockets with leakage current switch, made of chrome sheet, which provides comfort in the use of your electrical materials, optional 380V socket option.

Adjustable Shelf System

In the workbench cabinets, there is 1 height adjustable shelf in each cabinet.

Adjustable Feet

Chrome-plated legs that can be adjusted independently of each other so that the stance balance of the workbench is not affected by floor irregularities.

Electrostatic Powder Coating

All of our products are painted with electrostatic powder paint. Two different paint technologies, smooth and rough, are used.

Wide Color Choice

Freedom to choose the desired color with a wide range of standard colors and corporate color options.

Hanger Bracket

Along with the work benches, 33 hangers in various models are provided.

Since the inside of the cabinet and the doors are covered with perforated board, it can be used as a hanging board when desired.

Shelf System

There are 3 height adjustable material shelves in the material cabinet. Carrying capacity of a shelf is 80 kg.

Telescopic Rail System

Metry Telescopic rails with 100% opening and high product carrying capacity are used in all our drawers.

Latch Lock System

Thanks to the latch lock system in each drawer, it prevents unintentional opening of the drawers.

Adjustable Feet

Chrome-plated legs that can be adjusted independently of each other to prevent the work bench's posture balance from being affected by floor irregularities.

Electrostatic Powder Coating

All of our products are painted with electrostatic powder paint. Two different paint technologies, smooth and rough, are used.

Wide Color Choice

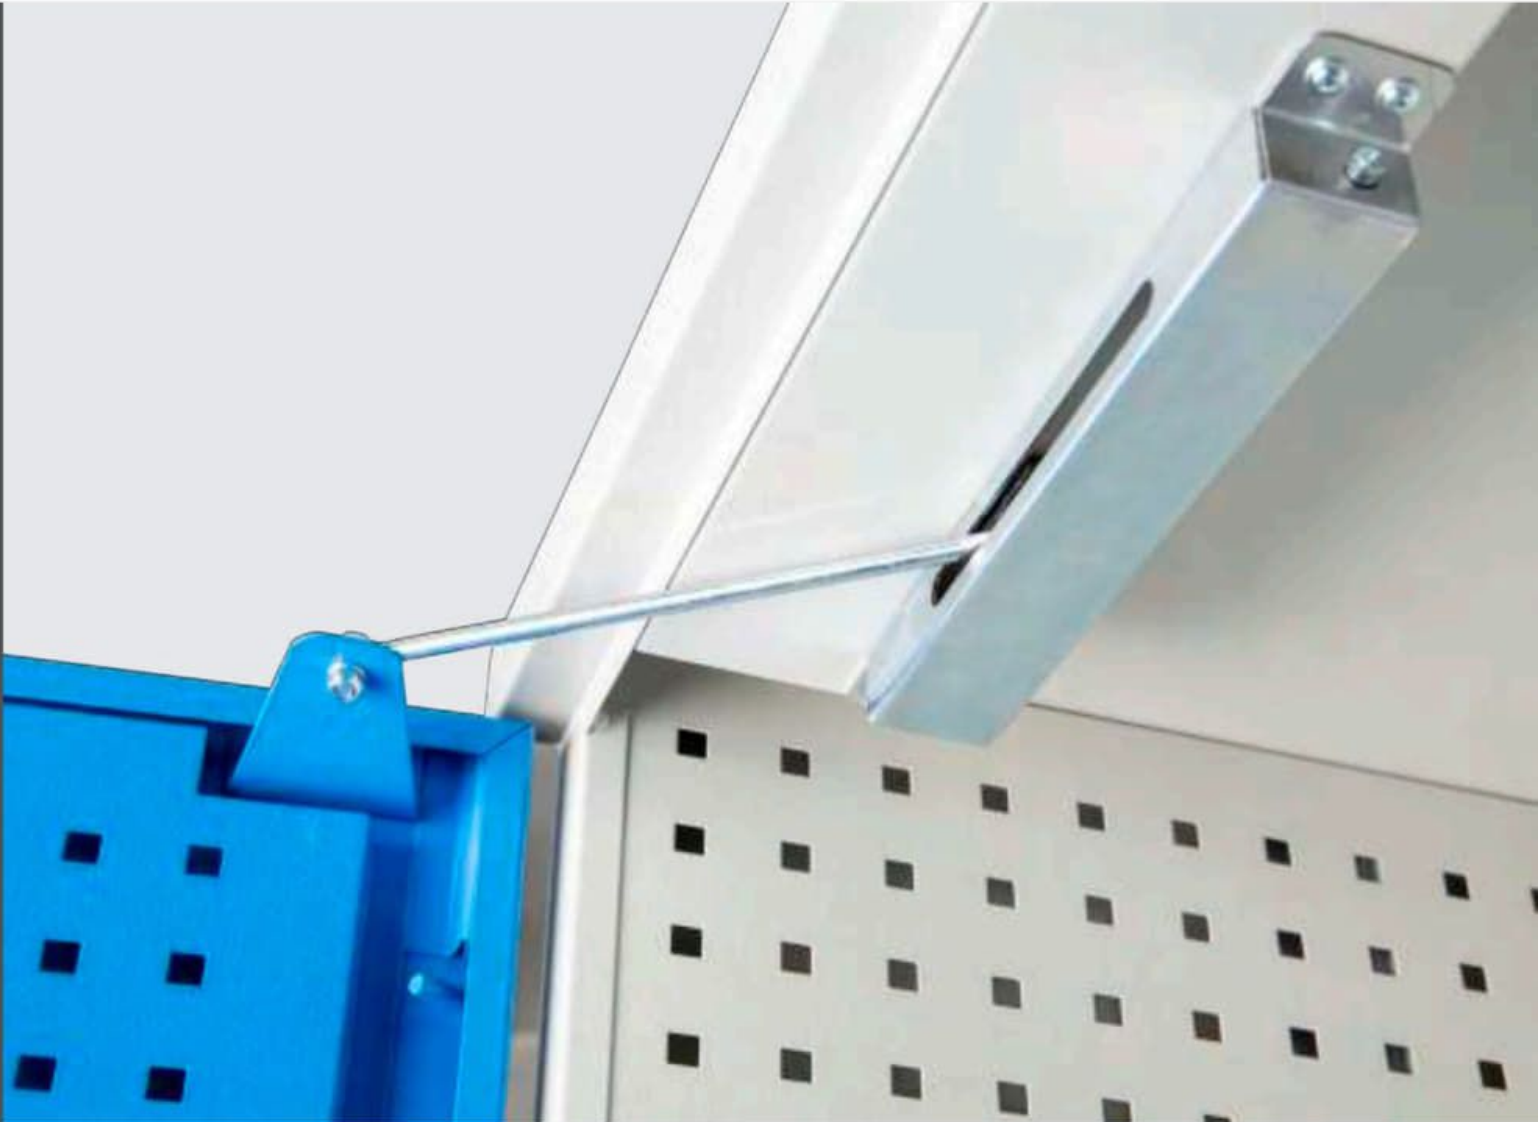

Freedom to choose the desired color with a wide range of standard colors and corporate color options.

INDUSTRIAL TYPE TELESCOPIC RAIL

Metray telescopic rails; The product groups with 27 mm, 35 mm and 45 mm widths are also available in standard sizes with different lengths from 250 mm to 1000 mm. Our rails, which have passed through various test stages, have successfully passed all tests without falling apart. Metray telescopic rails have a heavy load carrying capacity from 35 kg to 160 kg depending on the models. Drawers and platforms also have a 100% opening system that provides ease of use. The products are also nickel plated. All of our products are manufactured and assembled in-house. Emphasizing R&D activities, METRAY always aims to reach the best.
