## INDUSTRIAL TYPE TELESCOPIC RAIL

**Metray telescopic rails;** The product groups with 27 mm, 35 mm, 45 mm, 60 mm and 75 mm widths are also available in standard sizes with different lengths from 250 mm to 1000 mm. Our rails, which have passed through various test stages, have successfully passed all tests without falling apart. Metray telescopic rails have a heavy load carrying capacity from 35 kg to 160 kg depending on the models. Drawers and platforms also have a 100% opening system that provides ease of use. The products are also nickel plated. All of our products are manufactured and assembled in-house. Emphasizing R&D activities, METRAY always aims to reach
